On-Call Construction Solutions in Your Corner

For over a century, Riggs Distler has built the energy and utility networks that power the Eastern United States. Using leading technologies, proven management strategies, and veteran field leadership, we make our client's mission our own, focusing on first-class safety, budget efficiency, and careful execution to deliver projects with award-winning results.

As a turnkey service provider, our capabilities span the entire project lifecycle, construction and maintenance. Our clients count on our expertise, and we use it to save them time, money, and headaches so they can focus on the bigger picture.

NEW FEATURE: **SPECIALITY SERVICES**

BUNDLE EXCHANGER SERVICES

Aerial Extractors

Remote Controlled Operation
Maximum Tube Sheet Diameter Is 109"
Extract Bundles up to 32' Long With 100,000 lbs. Capacity
Experienced Certified Specialty Operators

Truck Mounted Extractors

Extract Tube Bundles up to 60,000 lbs.
Extract Bundles From Elevations Of 2' - 23'
Transport Bundles on the Truck up to 15t
Remote Controlled Operation
Experienced Certified Specialty Operators

TUBE BUNDLE AUTOMATED SERVICES WITH SMART TECHNOLOGY

Full Service Cleaning Pad Management
Automated Shell Side, Tube Side & Component Cleaning
Experienced Certified Specialty Operators

HYDROBLASTING

Line Mole Services
Hands-free Shotgun Applications with Automated Technology
Specialty Line Cleaning
Fully Automated Portable Cleaning Systems
2D & 3D Tower & Vessel Cleaning
Boiler Cleaning
Experienced Certified Specialty Operators

ULTRA HIGH PRESSURE SERVICES

UHP Exchanger Cleaning - Up To 40K
UHP Surface & Abrasive Blast Preparation
UHP Water Cutting Track Systems
Cut Up To 3" Steel
Tank Cutting-Door Sheets-Floors
Pipe Cutting-Concrete Cutting
Demolition, Reactors, Exchangers & Shells
Experienced Certified Specialty Operators

HEAVY INDUSTRIAL & GENERATION SERVICES

MECHANICAL SERVICES

TURNKEY SERVICES

Capital Construction

Site construction, Foundation & Concrete Work

Demolition/Clearing & Grubbing

Paving Streets, Roads, Curbs & Sidewalks

Underground Utilities

New Main & Service Installation
(Steel, High-pressure, Cast Iron)

Retaining Wall Installation Scaffolding

INDUSTRIAL ELECTRICAL SERVICES

High & Low Voltage Electrical Systems	Conduit, Duct Bank, Cable Tray & Bus Installation
Control Panel Installation Services	DCS Modifications
Instrumentation Installation- Wiring & Tubing	Ongoing Maintenance
Control Wiring, Cable Installation & Relaying	Startup & Commissioning Support
Switchgear, Transformer & Breaker Installations & Retrofits	High Voltage Splice & Terminations
	Instrument Technicians
	Phister Terminations

RENEWABLES

Engineering, Procurement & Construction

Posts/Racking Systems & PV Modules

Underground Cable

Lightning Protection

Fencing, Security & Landscaping

SCADA Systems/ Weather Stations

Switchgear & Invertors

Utility Interconnect

UTILITY SERVICES

ELECTRIC TRANSMISSION

- | | |
|-----------------------------------------------------------|-------------------------------------------------------|
| Energized Services (Hot Sticking & Bare Hand up to 500kV) | FERC/NERC Compliance |
| Tower Erection, Reinforcement & Demolition | Crane & Timber Mat Road Coverage |
| Steel Monopole Installation (Direct Bury or Foundation) | Laminate & Composite Matting |
| OPGW Installation | E & S Control Installation & Maintenance |
| Reconductoring (Single, Twisted or Bundled Conductor) | Construction Entrance & Concrete Washout Installation |
| | Wetland Reclamation & Permanent Restoration |

ELECTRIC DISTRIBUTION

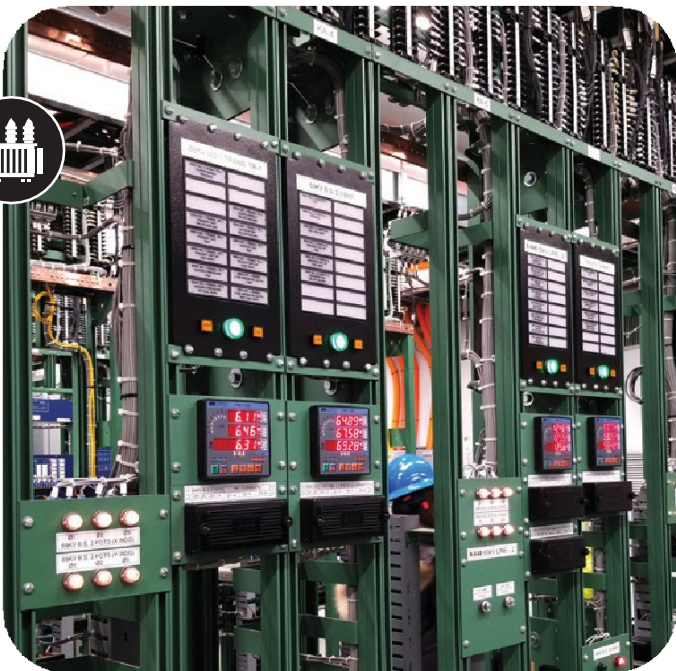

- | OVERHEAD | UNDERGROUND |
|--------------------------------------------------|-------------------------------------------------------------------------|
| Distribution Automation | Cable Pulling Directional |
| Network Construction & Maintenance | Drilling Duct Bank Construction |
| Overhead Fiber-Optic Installation | Electric Meter Installation |
| Overhead Make-Ready | Lead Cable Fault Locates & Repairs |
| Secondary Service Installation | Primary & Secondary Cable Replacement Fault Locates & Repairs |
| Smart Grid Installation | Underground Communications (Inc. Fiber-Optic) Distribution Construction |
| Street Light Construction, Repair, & Maintenance | URD Electric Main & Services Installation |
| Targeted Reliability Projects | Street Light Construction, Repair & Maintenance |
| Utility Pole Inspections & Replacements | |

ELECTRICAL SUBSTATION

- | | |
|-------------------------------------------------------|----------------------------------------|
| Turnkey Construction for Greenfield Substations | Relays & Control House Upgrades |
| Grounding Systems | DCS Modification Services |
| Below Grade Trenwa, Conduits & Ductbanks | Switchgear Installation & Retrofitting |
| Equipment, Breakers, CCVT, Capacitors, Reactors, etc. | Utility Scale Meter Deployment |
| Transformer Installation & Retrofitting Services | Back Office/Call Center Operation |
| Bus, Steel Supports & Major Structures | Emergency Response |

GAS DISTRIBUTION

- | | |
|-------------------------------------|----------------------------------|
| HDPE Main Installation (up to 24") | Service Installation |
| Steel Main Installation (up to 16") | Service Insert Work |
| Cast Iron Main Replacement | Bare Steel Service Replacements |
| High-Pressure Gas Main Installation | Service Transfers HDPE |
| Pressure Upgrade Work | Fusing Live Gas Taps |
| Regulator Stations | Gas Meter Rebuilds & Relocations |

EMERGENCY RESTORATION

- Storm Preparation & Delivery of Equipment
- Circuit, Substation & Distribution Line Restoration
- Hazard Clearing
- Pole Stripping
- Repairing & Raising Downed Transmission & Distribution Lines

PIPE FABRICATION FACILITY

Riggs Distler's state-of-the-art facility, conveniently located in the central Northeast sector of the US, focuses on providing efficient, quality production to the customers we serve. Our use of latest technology ensures enhanced performance and reliability in meeting project execution requirements servicing the power, chemical, refining, oil and gas industries.

COMMITMENT TO SAFETY

Our people power our success, and Riggs Distler puts the highest value on their safety. Taking a proactive approach, our team identifies and mitigates potential hazards during the planning and project design phase—before they become problems in the field.

Riggs Distler's managers develop site and project-specific safety plans, provide ongoing safety training for our staff, and utilize best practices on the job site that go beyond mere compliance. Our comprehensive oversight program results in LTI, EMR, and DART rates that consistently outperform industry averages and our competitors.

Emphasizing a culture of accountability and support in the field, Riggs Distler is committed to protecting the health and welfare of our employees and the investments of our clients.
